

## REMARKS

By the foregoing Amendment, various paragraphs in the Specification have been amended and newly added. No claims have been amended, cancelled, or newly added. Applicant believes that this Amendment does not add new matter. In addition, Applicant submits the following Remarks pursuant to the guidelines in MPEP § 714.16.

### REASONS FOR AMENDMENT

At the outset, Applicant notes that the foregoing Amendment amends the paragraph beginning on page 1, line 4 to update the cross-referenced related applications. In addition, the foregoing Amendment amends the paragraph beginning on page 11, line 15 and inserts a new paragraph thereafter to correct a minor typographical error in the “Brief Description of the Drawings,” which begins on page 7, line 10.

As such, the foregoing Amendment is necessary to update the data for the related applications referenced on page 1, and further to correct inadvertent errors discovered upon review of the present application prior to payment of the Issue Fee. More particularly, the inadvertent errors corrected in the foregoing Amendment include that the search screen shown in FIG. 43 was mistakenly identified as FIG. 42, and that the calendar feature shown in FIG. 42 and described in the disclosure (e.g., on page 65, line 16 *et seq.*) was mistakenly omitted from the “Brief Description of the Drawings.” The amendments to the Specification were not presented earlier because the inadvertent errors were not discovered until after the Notice of Allowance was mailed on October 6, 2010.

Finally, because the foregoing Amendment does not amend, cancel, or newly add any claims, there are no proposed amended claims or new claims that would require additional search and examination. The currently pending claims, which were allowed in the Notice of Allowance mailed on October 6, 2010, therefore remain patentable.

## CONCLUSION

Accordingly, for at least the reasons discussed above, and because this Amendment is being submitted prior to payment of the Issue Fee, the foregoing Amendment satisfies the requirements of 37 C.F.R. § 1.312 and the guidelines set forth in MPEP § 714.16. Applicant therefore respectfully requests entry of the foregoing Amendment into the record.

If the Examiner believes, for any reason, that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at the number provided.
